

Student Placement Survey
(Rev. 2003)

To assist the field experience coordinator, you are asked to complete the following survey. Indicate your past and present experiences, and request your current field experience. We hope to find a classroom setting matching your request as closely as the placements available will allow. Please be sure to keep in mind that you will need experiences covering the full range of the K-8 license. This means that if you plan on student teaching at a specific grade level, your 2505 and 3505 experiences need to be at a different level than your student teaching. Accuracy and honesty are of vital importance and are required on this survey.

** This form must be complete before consideration of placement is given.
