MSAT Professional Exploration

Applicants for the program must complete an exploration of the career to affirm selection of the program/profession and demonstrate understanding of the roles of the athletic trainer. Completion of this observation experience may occur in any professional practice setting and must occur under the direct supervision of an athletic trainer credentialed to legally practice in the respective state.

Applicants will be expected to enter information in the online application form. The following types of information will be solicited:

1) Beginning and end dates
2) Amount of time
3) Names of supervising athletic trainer(s)
4) Facility information (name, address, contact info, etc.)
5) A summary of patient care responsibilities and activities during the observation period
6) Reflection on how the professional exploration has expanded one’s knowledge of the athletic training profession
