SESSIONS START THE 2ND WEEK OF THE CLASSES UNLESS OTHERWISE NOTIFIED BY THE LEADER

Who can attend? All students enrolled in the corresponding course are invited to attend!

What is SI? Supplemental Instruction (SI) is a series of review sessions for students taking historically difficult courses. SI is intended to help all students who want to improve their understanding of course material and grades. It is for students who are committed to improving their grade, specifically students who want to raise their grade from a B to A or D to C. It is NOT remedial.

What is CLG? Collaborative Learning Group (CLG) is similar to SI with the predominate difference being the advanced coursework and session size. Whereas SI is offered for fairly entry level courses and oftentimes with large sessions of 20-40 students, CLG sessions attendees have already mastered basic skills and understandings, so CLG's purpose is to enhance students' learning experience in a specific course through thoughtful discussion, practical engagement, and thorough questioning of subject material in small peer study groups.

Do I need to attend the entire two hours? No, come and go as you need. The first hour is usually structured with an activity and then the second hour consists of either the activity continued, question/answer time, and homework time with the leader.

Who are the leaders? They are selected and trained to facilitate activities to help you further understand classroom material. They are upperclass students, who recently completed their assigned subject, with a passion for helping other students. They work closely with faculty and the program supervisor, Jessica, to create effective and helpful sessions.
