Balance and community are among the values cherished by The College of St. Scholastica’s founders, the Benedictine Sisters of Duluth. The addition of the Wellness Center to our campus honors those values.

The Wellness Center helps our students achieve lives of balance, developing intellectually, spiritually and physically. It fosters community by strengthening not only students’ health but their sense of shared potential.

On behalf of the students of The College of St. Scholastica, my sincere thanks to members of our community—individuals and institutions—who have given major support to the Wellness Center:

Karen B. Alworth, National Chair, Imagine Tomorrow campaign

The needs of our students led us to build the Wellness Center even as financial support was being secured. Your support is welcome! To make a gift, or to just learn more, call 723-6634 or visit imagine.css.edu.
