Getting started with encyclopedias

Admit it. You've used *Wikipedia*. Not that there's anything wrong with that! So you know how valuable a good encyclopedia article can be - it gives you an overview of topic without the length of a book or the specificity of a journal article. It's like Baby Bear's bed - it's just right. Use this guide to find great encyclopedia articles written by scholars from works selected by librarians. Your professors will love it!

- Reference Universe**
Use Reference Universe to search the table of contents & indexes of the majority of our print & electronic encyclopedia collection.
- Subject Encyclopedias**
A master list of both print & electronic subject encyclopedias (i.e. encyclopedias focused on single topic & written by scholars) arranged by subject.

Dictionaries

- Merriam-Webster Dictionary**
This collegiate dictionary also includes a thesaurus.
- Oxford English Dictionary**
The definitive source for the history of the English language.

Tutorials for Top Reference Resources

- Reference Universe
- Gale Virtual Reference Library
- Credo Reference

e-Encyclopedia collections

- Credo Reference** 
Dictionaries, encyclopedias & other reference sources. Includes subject guides and links to related resources in our other databases.
- Gale Virtual Reference Library**
Over 2,500 encyclopedias & reference works on a wide range of disciplines & topics.
- IGI Global Research**
Hundreds of full-text e-reference books in the field of computers in the health sciences, medicine, & business.

Credo Reference Homepage

Enter your topic in the *Search for anything...* box and click on the *Search* button to begin your search. Click on the *Advanced Search* link for more search options.

The screenshot shows the Credo Reference homepage. At the top, there is a navigation bar with links for ScholastiCAT, Databases, A to Z, The College of St. Scholastica logo, SOLAR, and Ask Us @ CSS. Below this is a blue header with the Credo logo and navigation links: Home, Find a Book, Tools, Mind Map. On the right side of the header, there are icons for a folder, a link, a question mark, a language dropdown menu set to English, and a Log out button. The main content area features a large heading: "Background Information to Start Your Research". Below the heading is a search bar with the placeholder text "Search for anything...". To the right of the search bar are two dropdown menus: "Basic search" and "All subjects". A blue "SEARCH" button is positioned to the right of the dropdowns. Below the search bar, there is a status message: "Searching 3,444,731 full text articles in 812 reference books". To the right of this message is a link for "ADVANCED SEARCH" with a gear icon. Two red arrows point from the "SEARCH" button to the "ADVANCED SEARCH" link. Below the search bar, there are two featured search results: "Harry Potter" with a collage of images from the series, and "Guglielmo Marconi" with a portrait of the inventor.

Easter Island

from *Encyclopedia of Archaeology: History and Discoveries*

Occupied by people from POLYNESIA at the extreme edge of their range in the early centuries A.D., Easter Island was named by a Dutch navigator by the name of Roggeveen during a visit to the island over Easter in 1722. It seems likely that this was one of the few contacts with the outside world that was made over the entire period of occupation of the island. Detailed archaeological research on Easter Island was begun by the Norwegian explorer Thor Heyerdahl in 1955, although the large statues (*moai*), the platforms (*Ahu*), the quarries, and the Rongorongo script had attracted attention earlier. An air of mystery (and some sadness) pervades Easter Island studies, but archaeologists now have a clear understanding of the means by which the famous statues were created and erected, the source of the island's original inhabitants, and the (devastating) environmental history of the island.
