

ProQuest

Several databases the Library subscribes to are through ProQuest including Dissertations & Theses @ The College of St. Scholastica, Nursing & Allied Health Source, and Newspapers including Newsstand (which has *The New York Times*, *St. Cloud Times*, *Star Tribune*, *USA Today*, *The Wall Street Journal*, *The Washington Post* and many others), and Historical Newspapers for the *Minneapolis Tribune* (1867-1922) and *The New York Times* (1851-2011). While the search pages might look a little different depending on which database you are using, it will largely operate the same.

Accessing the Database

Go to the Library Homepage css.edu/Library

Select *Databases, A to Z* from the *Popular Links* column on the left or click on the *Articles* tab at the top.

Ms. Dugan reads what?

Our *Faculty Read What?* series returns for December. This month we feature Ms. Anne Dugan, an art historian and adjunct instructor in our Art Department where she teaches modern art history. Ms. Dugan is a former director of the Duluth Art Institute, and the coordinator for the annual Free Range Film Festival near Wrenshall. (Yes, the one with screenings in the barn!)

Leap by Terry Tempest Williams

Williams goes on a 7-year spiritual spin out after seeing Hieronymus Bosch's painting "The Garden of Earthly Delights". She treats the painting as an unraveling tapestry – pulling on threads of science, psychology, and cosmic truth. My mother-in-law gave me this book when I got done with graduate school and it was so refreshing to read such a

Fall & Spring semesters

Once on Articles page, select the database you are interested either by finding it in the *Best Bets* box or else by clicking on the *Databases, A to Z* link for an alphabetical listing of all the databases the Library subscribes to. If you are on campus, you will not need a password. Look at the other tabs and boxes for more help with finding the full-text of articles, tutorials, and more.

Library of The College of St. Scholastica: ARTICLES

Welcome to the CSS Library. Please contact us if you need assistance.

If you are off campus, when you click on the title of the database, this window will automatically pop up:

Database Access via The College of St. Scholastica Library

Please enter your username:

Please enter your password:

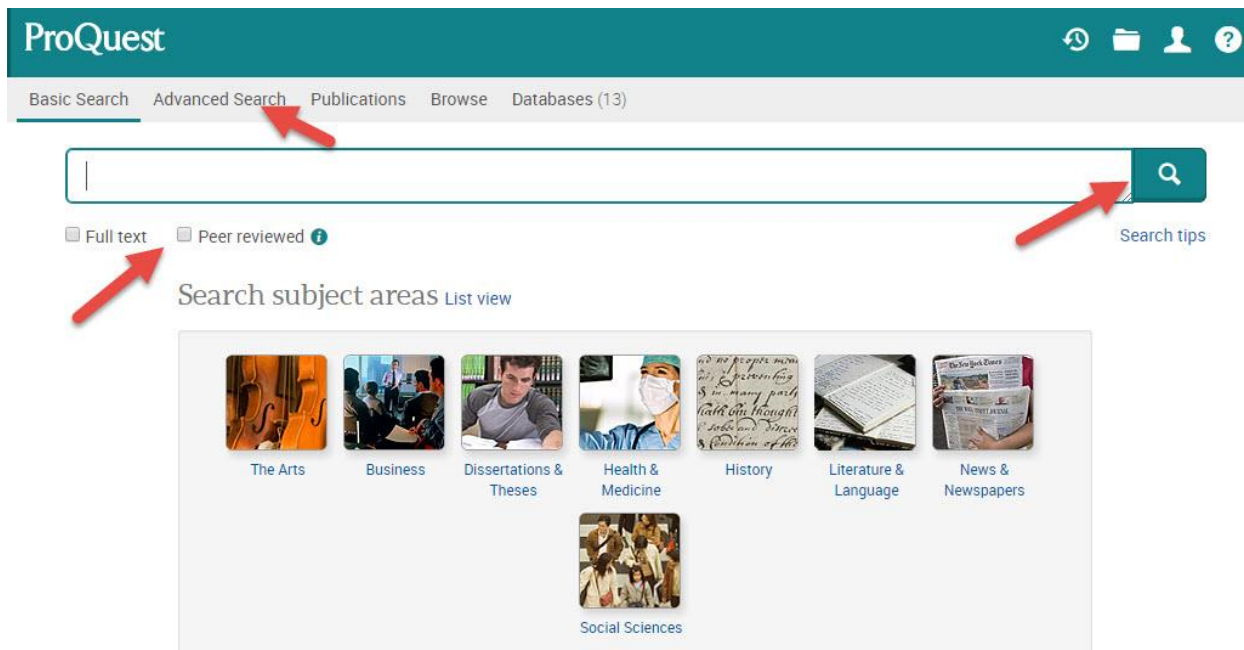

Your network login is active as long as you are a registered student, faculty or staff member of The College of St. Scholastica.

Enter your Novell username and password (what you use to log in to Blackboard, COR, your CSS email, or any computer in a lab on campus).

****Note:** If you have trouble logging in, please call the IT help desk (Toll free 1-877-723-5911).

Searching

Main Search Screen – defaults to a basic keyword search, which is good for simple searches. Enter a search term and click on the magnifying lens to begin. Click on *Advanced Search* for more search options. You can also apply some limits such as *Full text* and *Peer reviewed*.

Advanced Search

An advanced search allows you to combine multiple ideas of your topic and also search by author, document title, etc. by clicking on the pull-down menu *Key fields + text*.

To string your terms together, click on the drop down arrow at the end of the *and* box. Choose AND, OR, NOT to broaden or narrow your search.

AND – narrows searches by combining terms. Citations must have all your terms to be included in results list. Ex. Shellfish AND allergy AND precautions.

OR – broadens searches by searching for all terms separately. Citations will have either term. Ex. Higher Education OR College

NOT – narrows searches by excluding a portion of a large topic. Citations will have the first term but NOT the second term. Ex. Dogs NOT Poodles, Management Styles NOT TQM

Click on the links above search box to look up a citation, search by a very advanced method called the *Command Line*, or click on *Find Similar* to paste in text from a document to find similar items.

Below the search fields, you can place all sorts of limits including to full text, peer reviewed resources; date range; subject heading or MeSH subjects or locations; source type, document type, document feature, language, age group or gender.

Note: These limits are different for the various databases.

You can also change how your results are sorted. When your search is set up, click on the *Search* button.

Results List

Your Results Screen will list the articles that matched your search terms.

Click on the boxes in front of the articles' numbers to save records in which you are interested.

Click on the article's title to get more information including a summary of the article.

In the column on the right, you can limit results by various aspects such as by full text, peer reviewed, source type, publication title, etc.

Click on the boxes to limit to *Full text* or *Scholarly journals*.

Below each citation you will see some or part of the following choices:

Citation/Abstract –full citation that includes the abstract and the subject headings assigned to this citation.

Full Text – full-text of the article is available.

Full Text – PDF - full-text of the article is available. The article opens in Adobe Acrobat Reader.

Exporting Citations to EndNote

(see [instructions for EndNote](#) for information on how to use this program)

When you have an article you wish to add to your EndNote library, click on the *Save* link to the upper right of the article. Click on the *RIS (works with EndNote, Citavi, etc.)* link.

Select which *Citation style* from the pull down menu and then click on the *Continue* button.

Export/Save

Output to: RIS (works with EndNote, Citavi, etc.)

Content: (where available) Citation, abstract, indexing

Sort Order: Oldest first

Bibliography: Include bibliographic citations at the end

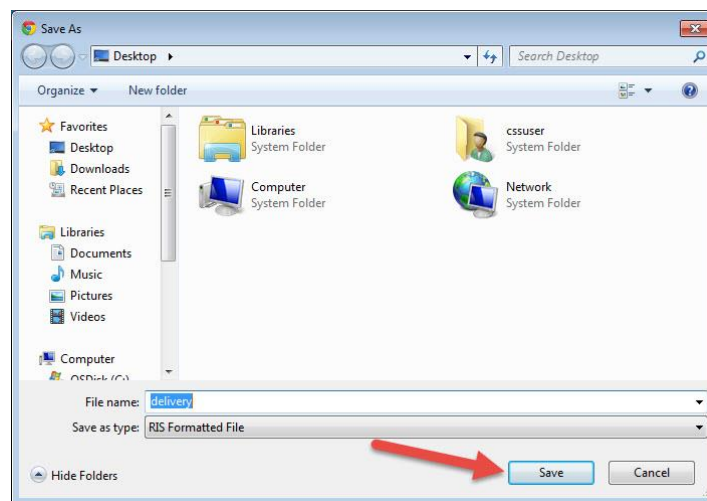

Citation style: APA 6th - American Psychological Association, 6th Edition

Include: Recent searches
 Cover page/header
 Table of contents
 Document numbering

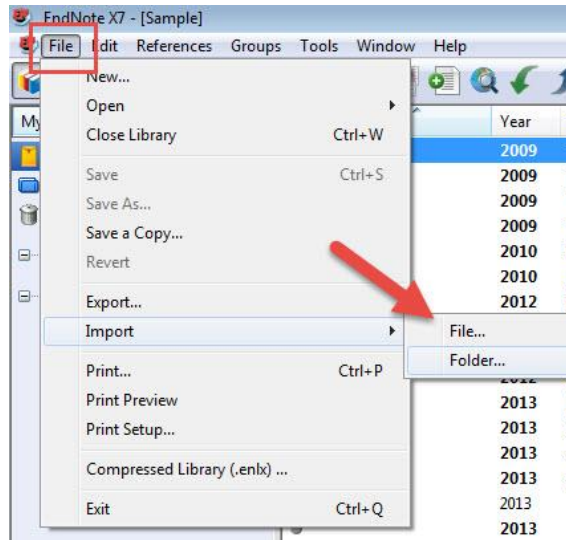

Opens a file in your citation management tool. You may be asked which program to use to open the file.

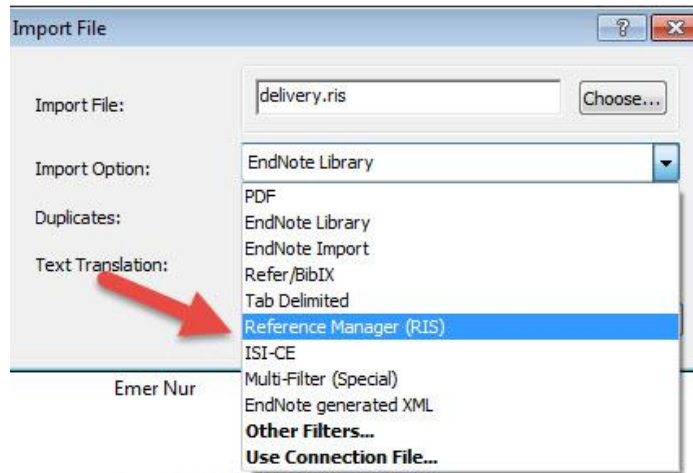

Click on *Save* where you wish the file to be saved.

Open the EndNote library you wish to add the citation to and in the *File* tool bar option, select *Import and File...*

Select the *Import* Option and click on *Reference Manager (RIS)*.

Click on *Choose...* to select the file you just saved and click on *Open*.

Your citations will now automatically be added to your EndNote library.
