Searching

Main Page – Enter your search in any of the search fields using information that you know such as a keyword or journal title and then click on the blue magnifying glass. Click on the *Advanced search* link for more search options.

Advanced Search Page - Type your search terms onto the lines for however you wish to search for your articles such as by keyword, author, journal, etc.

You can also combine terms to narrow your search - combine multiple terms, synonyms, and alternate spellings by using the Boolean terms AND, OR, NOT. These terms can help you to broaden or narrow your search.

AND – narrows searches by combining terms. Citations must have all your terms to be included in results list. Ex. Data compression AND Music.

OR – broadens searches by searching for all terms separately. Citations will have either term. Ex. Higher Education OR College

NOT – narrows searches by excluding a portion of a large topic. Citations will have the first term but NOT the second term. Ex. Dogs NOT Poodles, Management Styles NOT TQM

Place these Boolean terms **ALL IN CAPITAL LETTERS** between your search terms.

Results List

Results Screen – you will see a list of citations. Click on the article titles to view the full-text. Mark articles you are interested in by checking the boxes before the titles, and then above the results you can export citations or download the PDFs for those available full text.

See the column to the left to refine your results by year, article type, publication title, etc.

Below each article citation you will see some or part of the following choices:

Download PDF – an exact replica of the article scanned in from the journal.

Abstract – a summary of the article.

Export – Export citation to RIS allows it to be imported to EndNote (see end of tutorial for more information on that.)

Exporting Citations to EndNote

(see [instructions for EndNote](#) for information on how to use this program)

Click on the *Export* pull down menu either on the results page or at the top of the article's page.

On the results page, choose the *Export citation to RIS* for EndNote and then select where you wish the file to be saved, so it can be imported into EndNote.

On the individual article's page, select *Citation Only* or *Citation and Abstract*. As the default is set for RIS, which is what EndNote uses, just click on the *Export* button.

You have selected 1 citation for export.

Direct export

Export file

Format

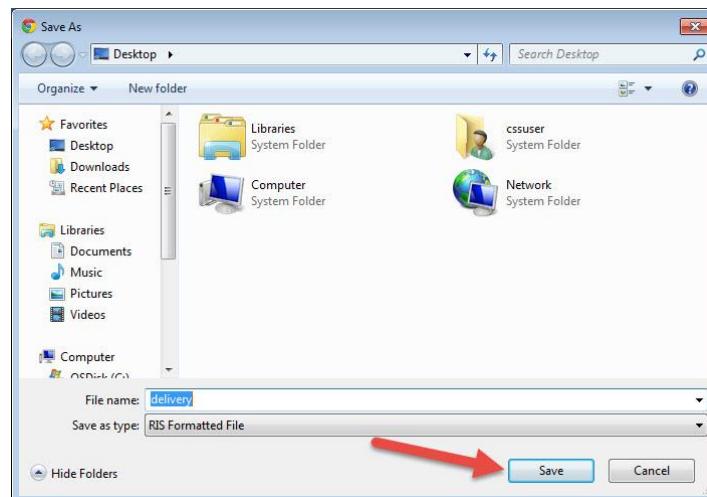

- RIS (for EndNote, Reference Manager, ProCite)
- BibTeX
- Text

Content

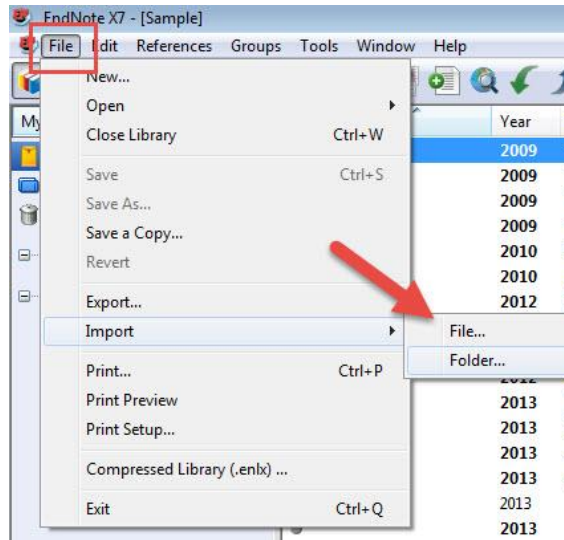

- Citation Only
- Citation and Abstract

Click on *Save* where you wish the file to be saved.

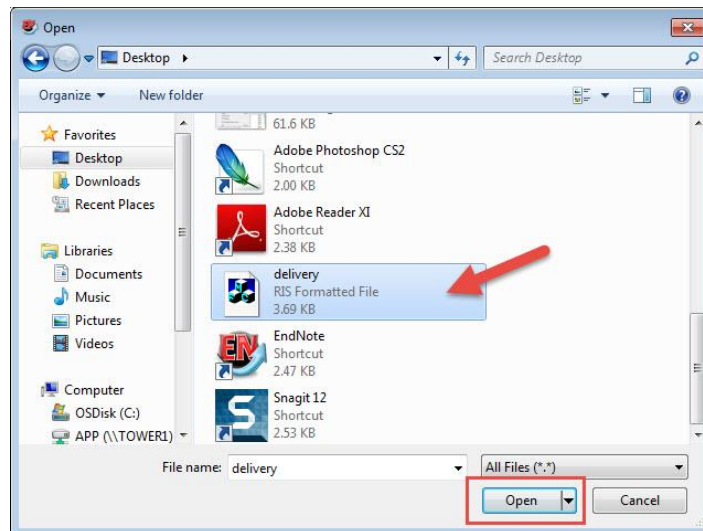

Open the EndNote library you wish to add the citation to and in the *File* tool bar option, select *Import* and *File...*

Select the *Import* Option and click on *Reference Manager (RIS)*.

Click on *Choose...* to select the file you just saved and click on *Open*.

Your citations will now automatically be added to your EndNote library.
